MEMORANDUM FOR: [REDACTED]

John:

25X1A9a

I thought that you would be interested in knowing that [REDACTED] Assistant to the Inspector General, was up to talk to me on 3 June about doing a survey of the Graphics Division. He says that there are many Graphics shops and people scattered throughout the Agency, many of which are not being used full time. He believes that it would be economical to combine these shops and proposes to make a recommendation to the Inspector General to that effect. I told him that I had no objection to such a recommendation but felt that it was necessary for a detailed study of the situation to be made before arriving at any conclusions. Please flag this for consideration by your Staff at an appropriate time.
